

PROFILE

I graduation complete at United International University (UIU). Besides, I have also worked as a web development in some project. Apart from that, I am a regular practitioner of social communication, public speaking & public influencing-based activities. My greatest passion is to share knowledge and views with people through effective interaction and active communication. After all, I want to build up my career as a software engineer.

Thesis Topic: **Dhaka- Isp Solution:**

We are going to develop a user friendly website where internet user and internet service providers(ISP) are going to have an amazing platform to interact with each other and find the best services. Our targeted audience are the people who living in Dhaka struggling to find a good internet service provider and the ISP those are searching for a place to find more user as well as maintain their user.
